

# MICROCHIP INFORMATION

It is our understanding that Save This Life Microchip Company has recently gone out of business. Pet owners who have their pets microchipped with "Save This Life" will need to update their registration information with another company to ensure their pet can be identified.

For our pet owners who are looking to transfer their **SAVE THIS LIFE** microchip enrollment can do so with HomeAgain through Merck at no charge. If you decide to go with another company, please check for any transferring fees.

Go to [www.homeagain.com](http://www.homeagain.com), use code **EnrollSTL** and your pet(s) will have lifetime enrollment with HomeAgain's database.

By using this code, HomeAgain is giving 1 year of their premium membership for free. If you would like to continue with the premium membership after the 1 year is up, you are able to do so with an additional charge. Otherwise, you are not required to continue the added service. Your information will be maintained and saved in the database for the lifespan of your pet.

If you are unsure what your pet's microchip number is, please email us and we will let you know.
